

Business Growth Website Design Package

Initial consultation at no charge.

Project Management

- Initial meeting/call to discuss your goals for your online presence.
- Explore ideas you have so I can provide you with a professional website designed to grow with your vision. (Branding, Design, colours, content etc)
- Discussion of domain name and hosting options that I can recommend if you require these services.
- Terms and conditions are reviewed and agreed to in order to begin.

The Design Process

- I will work with you to custom design a five page website you want (plus free optional extras below) with the content and photos you provide.
- This includes three changes to the layout. (page/content placement, image placement, additional free optional add-ons)
- You will be able to add pages and make changes to the site once it goes live.
- I use a custom designed template that fits the needs of your site.

Free Optional Add-Ons

- Blog page set up and one blog article
- Standard contact page
- Google map
- Gallery setup
- Slideshow on front page
- Social media follow and/or share buttons
- Basic Search engine optimization and advice for content.

Powerful Wordpress Platform

- Responsive Design ready for your customers using mobile devices
- Easily accessed administrative area to do your own updates

Service included after the site goes live

- Two additional hours either for a training session on doing your own updates or to use as part of a prepaid service package for me to do updates for you.

Please note:

- The above does not include custom logo design or custom image creation; however we will develop a simple graphic header if you do not have a logo of your own. We highly recommend you use either original photos you have taken or use an online graphic service where you can pay for images to protect yourself from copyright infringement.
- Design does not include custom content creation. All page content and proof reading is provided by the customer or we can highly recommend someone for you.
- Hosting and domain name costs not included in cost of design.
- Design does not include very extensive customized forms or ecommerce features.

Let's Get Started!

- Cost of the above package: \$900 +HST.
- A deposit of 50% is required to begin and the balance due when the site goes live.
- I have been helping clients with website design needs for over 18 years.
- Face to face or Skype appointments available
